Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1, 7, 8, and 10-13 are rejected under 35 U.S.C. 103(a) as being unpatentable over U. S. Patent No. 4,843,309 to Kareem et al. in view of U. S. Publication 2004/0183531 to Robinson et al.

With respect to claims 1, 7, 8, and 10-13, Kareem et al. discloses apparatus for analyzing statistical characteristics of an input signal, the apparatus comprising: a signal input for receiving the signal ; an event detecting unit operatively coupled to the input for detecting events at which the signal level crosses a predetermined level with a predetermined slope (see col. 3, lines 38-44); combining unit for combining multiple versions of the signal, the versions being shifted with respect to each other by amounts corresponding to the spacing of said events, to form a representation of the signal (see Fig. 3 and col. 3, line 45 to col. 4, line 7); and measuring unit for measuring a parameter dependent upon the shape of said representation and indicative of a statistical characteristic of said signal (see col. 4, lines 8-18).

Kareem et al. do not disclose the versions comprising overlapping parts of said signal.

Robinson et al. teach disclose the versions comprising overlapping parts of said signal (see Figs. 1, 2, and 5 and paragraph 0037).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify Kareem et al.'s method to include the versions comprising overlapping parts of said signal, as taught by Robinson et al., in order that deterministic components can be represented as a series of overlapping sinusoidal waveforms.

Allowable Subject Matter

4. Claims 2-6, 9, and 14-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments with respect to claims 1, 7, 8, and 10-13 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 2857

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
